Please amend the application as follows:

Drawings

Applicant encloses versions of a revised Figure 13. One copy is marked to highlight the minor changes made and the other is a clean copy. As objected to by the examiner, the lead line for element 15 has been added to the revised figure. No further changes have been made by applicant.

Claims

Applicant encloses a claim listing as required by 37 C.F.R. 1.121. Applicant requests that the examiner cancel pending claims 1-9 and review claims 10-14. As submitted, claims 10-14 incorporate the claim language of previously submitted claims 1-4 and claims 5-7. Applicant believes claims 10-14 as submitted address and overcome all of the objections
